Regarding Notes:

The notes on this form represent only a high-level summary of the information required. It is essential that all associates/brokers keep full and detailed notes throughout the process – including conversations with clients and lenders, email and text correspondence, internal notes, etc. It is strongly encouraged that these details are organized and packaged in such a way as to facilitate ease of access if they are ever needed – whether it's storing them in a folder as part of the compliance package or as part of your own personal records for the deal. These documents may be requested/required periodically to ensure agents and the brokerage are meeting compliance and regulatory standards.
